SUMMARY

I am a Full-Stack Developer with a strong focus on frontend development and a solid understanding of backend technologies. With experience in building dynamic, scalable web applications using React, FastAPI, and AWS, I am driven by challenges that require both creative and analytical approaches. Dedicated to exceeding expectation with high-quality solutions and minimal UAT bugs. My experience includes collaborating across teams to deliver deliverables within tight deadlines, demonstrating strong problem-solving and communication skills.

EXPERIENCE

Software Engineer, PSIOG Digital Pvt Ltd, January 2023-Current

- Crafted maintainable, high-performance front-end applications with React to ensure security and scalability.
- Collaborated with stakeholders to gather and analyze requirements, translating them into technical solutions that met business needs and user expectations.
- Specialized in building high-performance virtualized user interfaces, optimizing DOM rendering and data handling for large-scale web applications, resulting in improved efficiency.
- Launched a fully-functional documentation site in under three months to aid client's product.
- Tested and debugged software by writing unit tests and integration tests, and post-deployment, and ensuring reliability.

Graduate Engineer Trainee, PSIOG Digital Pvt Ltd, June 2022-December 2022

- Developed and maintained web applications using .NET and Angular JS, javascript, jQuery to enhance user experience and performance.
- Created complex data models to support advanced use cases, improving data processing and reporting capabilities.

EDUCATION AND TRAINING

Bachelor of Technology

Computer Science with spl. in Data Analytics, Vellore Institute of Technology, Amaravati May 2022

TECHNICAL SKILLS

- **Programming and Scripting Languages:** Javascript(ES6), Python, Java, HTML5, CSS, SQL
- **Libraries & Frameworks:** React, Angular, Node, Material UI, GSAP, Bootstrap, Django, MongoDB, .NET
- **Cloud services:** AWS(Lambda, API Gateway, Amplify, S3, DynamoDB, CloudWatch, IAM, EC2)
- **Tools:** Git & GitHub, Postman, Figma, Notion, Linear
